

Water Dispenser WD-1051 MAROON With Refrigerator

WD-1051 With Refrigerator — Key Specifications

| Parameter | Value / Detail |
|----------------------------|--|
| Model / Series | WD-1051, “With Refrigerator” / “Glass Door” / “Maroon / Noir Red / Champagne” variants are available. gsim2hwnpbvwtwmb1dg11z6.blob.core.windows.net+4Dawlance+4Dawlance+4 |
| Cooling Capacity | 2.4 L/h or 2.5 L/h (depending on variant) AYS Online+4Dawlance+4Dawlance+4 |
| Cold Water Tank Capacity | ~ 3.5 L Dawlance+3Dawlance+3AYS Online+3 |
| Hot Water Rate | 5 L/h or 6 L/h (depending on variant) Dawlance+3Dawlance+3Dawlance+3 |
| Hot Water Tank Capacity | ~ 1.6 L Dawlance+3Dawlance+3Dawlance+3 |
| Number of Taps | Typically 3 taps (Hot / Cold / Normal) in many “with refrigerator” versions Dawlance+3AYS Online+3Ahsan Electronics+3 |
| Refrigerator / Mini-Fridge | Yes, the dispenser has a refrigerator compartment built in. AYS Online+2Ahsan Electronics+2 |
| Dimensions / Weight | For many variants: Height ~ 107.6 cm, Width ~ 34.5 cm, Depth ~ 35.5 cm, Weight ~ 17.25 kg Dawlance+2Dawlance+2 |
| Operating Temperatures | Cold water output: ~ 7-10 °C; Hot water: ~ 85-95 °C in many listings Dawlance |
| Power / Electricals | Voltage: 220-240 V, 50 Hz Dawlance+2Friends Home+2 |
| Warranty | The compressor warranty is often 3 years; parts warranty is 1 year in many Dawlance manuals / listings. gsim2hwnpbvwtwmb1dg11z6.blob.core.windows.net+2Manuals++2 |

Features & Highlights

- **Three-Tap System (Hot / Cold / Normal)** — Many versions offer hot, cold and ambient water via three push / mechanical taps. [AYS Online+2Dawlance+2](#)
- **“With Refrigerator” Feature** — The unit has a built-in mini refrigerator space or cool compartment under or alongside the dispenser to store small items (bottles, snacks). [AYS Online+2Ahsan Electronics+2](#)

- **Bigger Capacity Tanks vs Earlier Versions** — Marketing mentions “17% bigger cold water tank”, “60% bigger hot tank” and “40% bigger refrigerator portion” compared to older models. [AYS Online](#)
 - **Stainless Steel / Hygiene Tanks** — Many variants list that internal tanks are stainless steel for better hygiene. [AYS Online+1](#)
 - **Glass Door / Premium Design** — Some variants (e.g. “Glass Door” / “Glass Door Champagne” / premium finishes) have a more modern aesthetic. [Dawlance+2Ahsan Electronics+2](#)
 - **Mechanical Controls** — The taps and operation are largely mechanical / push type (not digital) in most listings. [Dawlance+2Dawlance+2](#)
 - **“Spill Free Cap”** — The manual for WD-1051 mentions a “Spill Free Cap” to reduce plastic particles entering the water tank from the bottle. [gsim2hwnpbvwtwmbldg1lz6.blob.core.windows.net+1](#)

Strengths & Limitations

Strengths

- Combines water dispensing (hot, cold, ambient) with refrigerator capability — dual use in one appliance.
- Large-ish water tank capacities, good for moderate to heavy daily use.
- The “with refrigerator” feature provides additional utility (cool storage) beyond just water.
- Availability of variants (color / glass door) gives flexibility for matching décor.
- Good warranty on compressor (3 years) increases confidence in reliability.

Limitations / What to Verify

- The refrigerator compartment is smaller than a full fridge — limited storage.
- In high ambient temperature environments, cooling output might struggle under heavy usage.
- Hot water capacity and heating speed need to handle demand — 5–6 L/h is reasonable, but if many users demand hot water simultaneously, it may lag.
- Mechanical taps lack digital control; you won’t get features like precise temperature adjustment or timers.
- Ensure internal dimensions, refrigerator shelf space, and door clearance are suitable for your needs.
- Warranty conditions (authorized repair, use of original parts, correct installations) matter — always check with the seller.
