MWO DW-210 S SOLO WHITE Heating Microwave Oven

Key Specifications

Parameter Value

Capacity 20 Liters <u>Dawlance+1</u>

Type Solo / Heating only (no grill or convection) Dawlance+1

Power / Output 700 W (microwave heating) Dawlance+1

Voltage & Frequency 220-240 V, 50-60 Hz Dawlance

Control Type Mechanical (rotary / dials) Dawlance

Width: 44 cm

Dimensions Depth: 34.8 cm

Height: 28.5 cm Dawlance+2Dawlance+2

Weight $\approx 10.7 \text{ kg } \underline{\text{Dawlance+2theimtiazstore.pk+2}}$

Color White (unit and control panel) Dawlance+2Dawlance+2

Features & Functional Highlights

- **Solo Mode**: It's a basic microwave heating unit (no grill or convection) intended primarily for reheating, defrosting, and simple cooking. Dawlance+1
- **Mechanical Controls**: Uses knobs / mechanical interface, which are simpler and more durable in many cases. Dawlance
- **5 Power Levels**: Offers selectable power levels to adjust heat / cooking intensity. (Some listings mention 5 levels) Daraz+1
- **Timer Function**: Up to 35 minutes timer is supported. <u>AYS Online+2Daraz+2</u>

Pros & Advantages

- Good size (20 L) for small to medium households, daily reheating & basic cooking tasks.
- Mechanical controls are straightforward, with less risk of panel / touch failures.
- As a solo microwave, it's simpler, which generally means lower cost and fewer parts to fail.
- Relatively lightweight and compact for countertop / freestanding installation in kitchens.

Limitations & Considerations

- No grill or convection mode you can't grill, bake, or crisp food with this model.
- 700 W output is moderate heavier cooking or denser food may take longer compared to higher-output models.
- Mechanical controls limit more advanced features (no digital menu, combination cooking).
- Internal cavity size, turntable diameter, and clearance for taller dishes might be constraints depending on your cookware (these dimensions are not fully detailed in public listings).
